CAMERIN INNOVATE JOB PORTAL

STUDENT AI CHATBOT — RAG KNOWLEDGE BASE DOCUMENT

RAG Vector Data Source v1.0

TARGET AUDIENCE	SOURCE DOCUMENT	EMBEDDING STRATEGY
Candidates / Students	**Software Requirements Spec (SRS)**	**Chunk size 200–300 tokens**

1. Overview & System Scope for Chatbot Answers

This document contains structured knowledge extracted from the Camerin Innovate Job Portal SRS. It serves as the single source of truth for indexing into the RAG vector database. The candidate chatbot should answer any student query regarding registration, resume uploads, vacancy applications, interview processes, verification statuses, and selection results based on these chunks.

CHUNK_01: SYSTEM_OVERVIEW

System Purpose & Roles

Portal Purpose and Core Roles

Knowledge Content: The Camerin Innovate Job Portal connects students (candidates) with hiring companies through verified recruiters (employees), online interviews, and transparent result tracking.

Key Roles:

1. **Candidate (Student):** Registers, uploads a resume, views vacancies, applies to jobs, attends scheduled interviews, and views results.
2. **Employee (Recruiter):** Posts job vacancies, verifies student profiles, schedules interviews, records attendance, and publishes results.
3. **Admin:** System administrator who verifies employee (recruiter) accounts and monitors students.

CHUNK_02: REGISTRATION_RULES

Candidate Registration & Login

Candidate Account Registration

Knowledge Content: Students can register on the portal by providing compulsory details: Name, Email, Phone Number, Date of Birth (DOB), Gender, Address, Qualification, Department, Year of Passing, Technical Skills, and Password.

System Validation Rules:

- Emails must be unique; duplicate emails are automatically rejected.
- Password strength and phone number formatting are validated upon registration.
- Registered candidates can log in using their email and password.
- Password recovery is available via a reset link sent to the candidate's registered email address.

2. Core Functional Chunks for RAG Vector Database

CHUNK_03: RESUME_RULES

Resume Upload & File Requirements

Resume Upload Guidelines

Knowledge Content: Candidates must upload their resume to apply for job vacancies.
File Requirements:
• **Supported Formats:** PDF (.pdf) and Microsoft Word (.docx) only.
• **Maximum File Size:** 5 MB.
• **Replacement & Versioning:** Candidates can delete or upload a new resume at any time. The system automatically maintains and presents only the *latest version* to recruiters.
• **Security:** All uploaded files undergo automated format and size scanning before being saved.

CHUNK_04: VERIFICATION_GATES

Verification Gate Workflow

Two-Tier Verification Workflow

Knowledge Content: The system enforces strict access control through two mandatory verification gates:
1. **Recruiter Gate (Admin Approval):** Recruiters cannot post vacancies or schedule interviews until the Admin approves their account.
2. **Student Gate (Recruiter Approval):** While candidates can register and apply for jobs immediately, *an interview cannot be scheduled until an employee (recruiter) reviews and verifies the student's profile and resume.*
Status Values: Candidates can be marked as Verified or Rejected with remarks provided by the recruiter.

CHUNK_05: INTERVIEW_PROCESS

Interview Scheduling & Attendance

Interview Lifecycle & Attendance

Knowledge Content:
• **Scheduling:** Verified recruiters schedule interviews by setting date, time, mode (Online or On-site), and adding a meeting link (Google Meet, Zoom) or physical venue.
• **Notifications:** Candidates receive instant email and in-app notifications upon scheduling, rescheduling, or cancellation, along with automated reminders prior to the start time.
• **Attending Online Interviews:** Candidates join online interviews using the link provided in their dashboard. The system automatically logs attendance upon clicking the link, which recruiters can view.

CHUNK_06: RESULTS_PERFORMANCE

Interview Results & Scoring

Results and Feedback Transparency

Knowledge Content:

• **Publishing:** Recruiters evaluate candidates after interviews and assign an outcome: Selected, Rejected, or On hold, along with a numeric score and text feedback.

• **Visibility:** Results become visible in the Candidate Dashboard *only after* the recruiter explicitly publishes them. Candidates can access their entire history of scores, feedback, and outcomes across rounds.

3. Quick Student FAQ Matrix (Direct Query Mapping)

Common Student Question	Relevant Chunk ID	Canonical Answer for Chatbot
Why can't I see any interview schedule yet?	CHUNK_04: VERIFICATION_GATES	An interview can only be scheduled after a recruiter reviews and verifies your profile and resume details.
What file types can I upload for my resume?	CHUNK_03: RESUME_RULES	You can upload PDF or DOCX files up to 5 MB in size.
How do I join my online interview?	CHUNK_05: INTERVIEW_PROCESS	Go to your scheduled interviews in the candidate dashboard and click the meeting link provided by the recruiter.
Can I update my resume after submitting it?	CHUNK_03: RESUME_RULES	Yes, you can replace your resume at any time. Recruiters will only see the latest uploaded version.
Where do I see my interview marks and feedback?	CHUNK_06: RESULTS_PERFORMANCE	Check the "Results" section on your dashboard. Feedback and scores appear once the recruiter publishes them.

4. System Boundaries & Non-Supported Features

Out of Scope Instructions for Chatbot Guardrails:

If a student asks about **payroll, salary processing, formal offer letters, mobile apps, paid promotions, or video recordings**, the chatbot must politely respond that these features are currently out of scope for Version 1.0 of the Job Portal system.
